### FOREWORD

For glory and variety of color no flower can rival the Dahlia. The riot of color as one walks among the plants on a bright morning fairly dazzles the eye. True natives of Mexico, they retain the glory of the tropics even when we produce new types and gigantic flowers. Visit our Dahlia Gardens and catch the enthusiasm that will send you home to build a garden of your own.

All roots are guaranteed to be true to name. Those starred are accredited fine varieties.

TERMS: Cash remittance. Ten per cent discount on \$10 orders of Dahlias and Gladioli.

JENNIE D. TUDOR.
